Westlake International School (WIS) is a purpose-built school with on-campus boarding facilities located in Kampar, Perak. WIS delivers the world recognised Cambridge curriculum leading to the IGCSE and A Level for students aged 4 to 18.

Since opening in 2013, WIS has achieved remarkable results in both academics and sports. In 2018, we saw our students winning gold medals in the Cambridge Science Competition and bronze Duke of Edinburgh Awards. WIS graduates have also gained admission to prestigious top-tier universities such as Yale-NUS, Manchester, Bristol, Warwick and Melbourne. In sports, our school teams have attained impressive wins at district and state levels.

Westlake International School's vision is to transform minds and change lives in the pursuit of excellence as a responsive, relational and reflective school. Our mission is to provide the **B.E.S.T.** education experience through:

- Boarding that develops independence, integrity and emotional intelligence
- Excellent and Holistic Education
- Sports that build determination and discipline
- Recognising and nurturing Talents

Welcome

I am delighted to welcome you into Westlake International School's A Level programme.

Whether you are joining the school for the first time, or have already been here for years, I am confident that you will find this next step in your academic life exciting and immensely rewarding.

There will be a significant difference in your academic life. You are now studying only the subjects that you have actively chosen and you will be encouraged to embrace the challenge of more independent, in-depth and rigorous study. You will be able to do all this in our specially designed A Level Centre, which provides you with adequate space for study and socializing.

As seniors in the school there will be many opportunities to become leaders: in your academic subjects as mentors and in school-wide programmes. I trust that you will always put your best self forward and be open to growth. You will now have more freedom and enjoy special A Level privileges but with these come the expectation that you will give back to the school community.

The wholesome programme offered provides opportunities for you to build a whole range of skills whilst having a lot of fun. We have carefully put together the Career Navigator Programme (CNP) to give you an overview of higher education, the range of courses available and possible career outcomes. CNP also includes the Duke of Edinburgh's Awards which will equip you with lifeskills to survive in the world.

As well as this, you will be undertaking Job Shadowing and Work Experience in order to gain an understanding of the career of your choice.

And so, my challenge to you is to make the most of your years here and the opportunities on offer to develop into thoughtful, generous and considerate young adults. The team at Westlake will be here to guide you through the process of learning how to deal with increased personal responsibility and craft your personal learning journey.

I wish you all a happy and successful A Level experience at WIS.

University Pathway Options

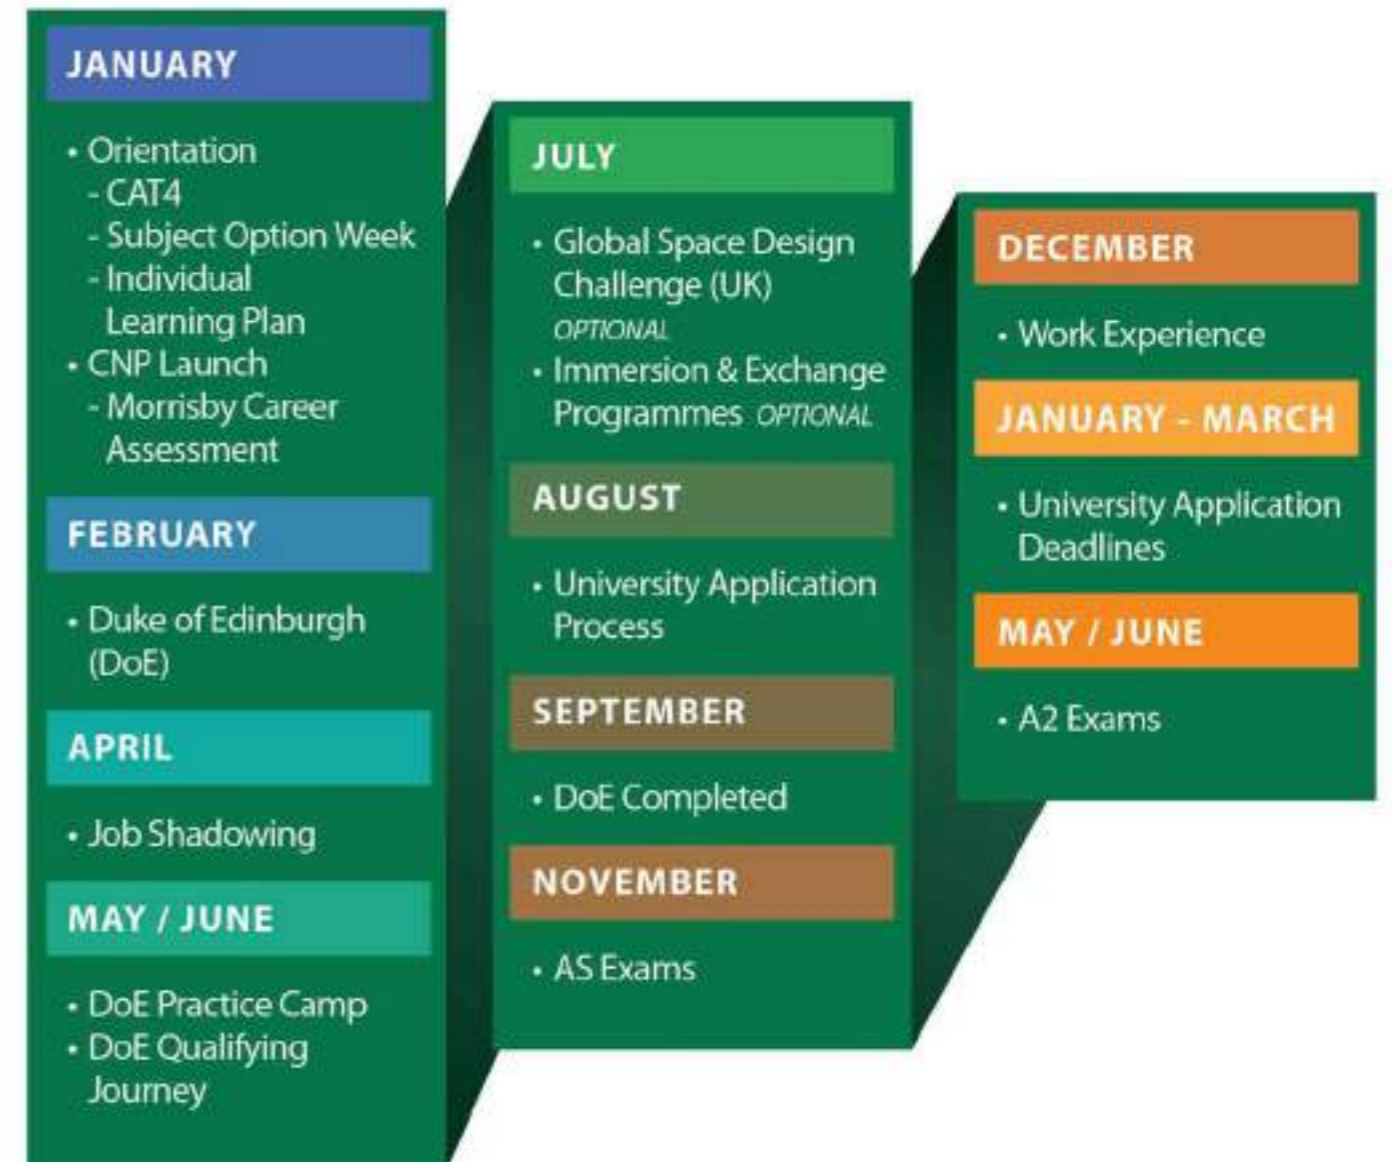

Our range of A Level subjects provides you the opportunity to select the best fit for your abilities and admission into the university of your choice.

24-Month Programme Structure

18-Month Programme Structure

Academic Programme

The Westlake A Level programme is designed to support your academic progress and maximize your success. Our goal is for you to achieve the academic results needed to progress to a top university. At the same time we understand that A levels is a

transition towards independent learning at university, thus our programme is designed to build the skills required for the next level of learning. Our A level teachers work with small groups of students, guiding them through rigorous academic

challenges that are designed to ensure success in both the AS and A2 examinations. Teachers also provide parents with regular updates on progress and attainment levels.

Career Navigator Programme

The main focus of A level study is to prepare you for that big leap into university. Our Career Navigator Programme has been designed to provide our students the avenues to explore different pathways open to them in life. Students will get the opportunity

to explore different career choices, speak to employers in their field and gain real world work experience. This will allow students to develop a clear vision of the type of course to pursue in university. Leadership is also a critical lifeskill which universities

and employers value.

The Leadership Development programme is a core component to equip our students with the character traits that will be of value in the future.
